Forecast for Friday 29 Jul 2022

Weather: A dry start to the morning with patchy cloud and some early mist and fog in the valleys which will clear quickly. Some scattered light showers will develop from midday, easing by late afternoon. Staying dry with plenty of sunny spells into the evening.

Chance of cloud-free hill tops above 600m: 80%, increasing to 90% once any mist and fog has cleared.

Low cloud and visibility: Fog may briefly lift to patchy low cloud at around 400m, but this should clear quickly by mid-morning. Any patchy cloud through the rest of the day should stay above the summits. Generally good visibility up to 30km, but poor in any early mist and fog in the valleys.

Meteorologist's View

A fine day in the mountains once any early mist and fog has cleared, with scattered cloud at times, but plenty of sunny spells. Any showers are likely to be light and mainly confined to the east of the National Park. Feeling warm in any prolonged sunshine.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Thu 28 Jul 2022	0mm	0mm	0mm

Forecast for Saturday 30 Jul 2022

Weather: A much cloudier day, with a band of rain and drizzle moving in from the west during the late morning, and persisting for much of the day. There will be some drier spells at times, but staying cloudy.

Maximum wind: Southwesterly, 15-20mph and gusting up to 30mph.

Chance of cloud-free hill tops above 600m: 60%, decreasing to 40% by early-morning, and 10% as rain moves in from the west.

Low cloud and visibility: Cloud will be above the summits from midnight, but quickly lowering to 400-500m as the rain approaches by mid-morning, and persisting through the day. A risk of patchy cloud on lower slopes in any heavier rain and drizzle. Good visibility below the cloud base, becoming moderate to poor in low cloud and precipitation.

Temperature: **Valleys:** plus 15C rising to plus 21C.
At 600m: plus 11C rising to plus 15C.
Freezing level: well above all summits.
